Director's Report

We are in the “dog days of summer” right now, but there are some exciting things happening on the horizon for model railroaders in the north Texas area.

First and foremost is the Plano Train Show on September 28th and 29th. Our division is responsible for manning the booth and this affords us an excellent opportunity to educate prospective members on the advantages of the NMRA and make a personal connection with them. The Division will also be showcasing the “Pay it Forward” module, which will demonstrate how simple techniques in track laying, building techniques and scenery produce outstanding results, all culminating with a raffle on Sunday afternoon.

Some of you may have heard 4014 will be making a return trip to Fort Worth on October 11th thru 14th. These dates may shift slightly. The Cowcatcher Division will be involved in the visit. Mike Mackey is seeking volunteers and can be contacted at: mikemackey_tx@sbcglobal.net. Please do not use director@cowcatcherdivision.org since he is no longer in that position.

As a “heads-up”, this will require we move our October meeting from October 12th to October 5th. Please note that on your calendars because we kick off our fall “make and take” for the speeder shed at the October meeting.

Russell Gifford did a great job presenting the clinic on Magnorail at last month’s meeting. Thank you, Russell! This month’s clinic is being presented by David Steckler on dirty engine servicing tracks.

Don’t forget to bring a friend to the meeting and if you see a new face at the meeting be sure to introduce yourself.

Groups.io Introduction

By Eric Smith

All the members of the Cowcatcher Division of the NMRA have an account on groups.io. Groups.io is a messaging board that allows us to communicate quickly and easily with all members of our Division. It allows us to send notices to extended members of the NMRA that have requested to receive messages from our division. In this article I will give you a brief introduction to groups.io and how to use it to post questions to everyone or look up the email of a specific member of the group.

If you have already logged into groups.io, it is important to note that you can get to groups.io from the Division 1 website <https://cowcatcherdivision.org>.

NEWS FLASH

- Next Meeting
 - Saturday, June 8, 2024, Time 10:00 AM - 12:00 PM
 - Texas Western Model Railroad Club
6808 Forest Hill Drive, Forest Hill, TX 76140
 - Program: Annual Division Hot Dog ++ Cook Out
Possible Zoom Clinic on British Railway Modeling

Every month the leadership team receives a list of new members for our division of the NMRA. This contains your name and your email address. We use this list to generate accounts to groups.io. When a new account is created, the new member will get an email instructing them on how to get into groups.io.

[Cowcatcher Division 1] You have been added to the cowcatcherdivision@groups.io group els_us1@yahoo.c.../Inbox

Groups.io Notification <noreply@groups.io>
To: eric smith <els_us1@yahoo.com>

May 21 at 9:26 AM ☆
[Print](#) [Raw message](#)

Hello eric smith,

You have been added by the Groups.io Team to [Cowcatcher Division 1 Lone Star Region, NMRA](#). You can use [this link](#) for the next 24 hours to log in if it's your first time logging in or if you have forgotten your password. You can do this in the future using the "email me a link to login" button on the Login page.

The email for this group is: cowcatcherdivision@groups.io. Because our system allows for participants to post via web or email, you can use this email to post new topics.

But most importantly, please add this email address to your safe sender list in your email client's contacts. If you find emails from this group landing in spam, promo, or social folders, please move those emails to your primary inbox so that you can train your email client to put them directly in your inbox.

If this was a mistake, please click on the following link and you will be immediately removed:

[Unsubscribe](#)

The Groups.io Team

Click on the "this link" to take you to the initial login page for groups.io.

The screenshot shows the Groups.io website interface. At the top, there's a navigation bar with "Groups", "Your Groups", "Find or Create a Group", and "Help". Below this is a sidebar menu with options like "Your Groups", "Topics", "Hashtags", "Your Calendar", "Your Chats", and "Your Activity". The main content area shows a "Feed" section with a message: "Your profile is missing a photo. Add one now." Below that, there's a message: "You do not have a password set for your account. If you'd like, you can set your password by going to your profile." The feed then displays "Groups.io Updates" with a subscription link and a list of "Active Topics" including "Site updates" with dates from May 17 to May 25. At the bottom, there's a section for "Cowcatcher Division 1 Lone Star Region, NMRA" with a subscription link and a list of "Active Topics" including "NMRA Code of Conduct" and "Tornado goes over train in Nebraska".

Cowcatcher Division

Division One of the Lone Star NMRA Region

This is the first screen that you will see. It is divided into 5 major component areas. The top is the control bar that indicates you are on the groups.io page and who the system thinks you are going to log in under. On the left is the menu of options. Note: this list will grow when you log into groups.io. The right portion contains 3 areas of interest: the top portion contains actions that you need to complete, such as setting a password or adding a profile photo. The center portion is information about the site, and the bottom is to indicate you are in the Cowcatcher Division 1 Lone Star Region of the NMRA groups.io page.

On the page set up a password by clicking on the link in the 2nd green section listed as “profile”.

Cowcatcher Division

Division One of the Lone Star NMRA Region

Since you are not in the account setting section of your personal groups.io account: On this page you need to set a password so you can login to groups.io and become a user.

Once you set a password, it will immediately take you to the login page. You will need to use the email address and password you just created.

Not Sure?

Are you receiving emails from a Groups.io group but have never visited the Groups.io website? You probably don't have a password set up yet. Use the [Email me a link to log in](#) button above to log into the website.

Don't have a Groups.io account? [Registration is free and easy.](#)

At this point, if you typed your password correctly, you will be logged into groups.io and see the home screen.

Cowcatcher Division

Division One of the Lone Star NMRA Region

The screenshot displays the Groups.io interface. At the top, there's a navigation bar with 'Groups', 'Your Groups', 'Find or Create a Group', 'Help', and a user profile for 'eric.smith'. The left sidebar contains navigation options: 'Feed', 'Your Groups', 'Topics', 'Hashtags', 'Your Calendar', 'Your Chats', and 'Your Activity'. The main content area shows a feed with two group entries:

- Groups.io Updates**: Subscription: Single, 1,010,854 Members. Official announcement group for updates to the Groups.io service. Active Topics: Site updates (May 17, May 10, May 3, Apr 26).
- Cowcatcher Division 1 Lone Star Region, NMRA**: Subscription: Single, 241 Members. This group is the Main Group where you access all Division 1 news, announcements, and... Active Topics: NMRA Code of Conduct (May 15).

The upper right, where your name is displayed, has a pull-down menu that allows you to access your account and your preferences. The bottom portion is the link to the actual groups.io messaging system.

Cowcatcher Division

Division One of the Lone Star NMRA Region

The screenshot shows the Groups.io interface for the Cowcatcher Division group. The top navigation bar includes 'Groups', 'Your Groups', 'Find or Create a Group', and 'Help'. The left sidebar contains navigation options like Home, Subscription, Messages, New Topic, Drafts, New Poll, Hashtags, Chats, Members, Directory, Calendar, Photos, Files, Databases, and Wiki. The main content area displays a list of messages with various tags and details. The messages include:

- NMRA Code of Conduct** (#Special): National Model Railroad Association, Inc. Member Code of Conduct Introduction This Code of Conduct... Started by Eric Smith @ May 15
- Tornado goes over train in Nebraska** (#TinyKeepAlive): About two weeks ago. Train Conductor Finds Himself Caught In Tornado's Path || ViralHog Train... Started by Dave S. @ May 8 · Most recent @ May 8
- Whistle May 2024 Division 1 Newsletter** (#DivLeadership, #Special): New Whistle Newsletter is available at <https://cowcatcherdivision.org/wp/newsletters/whistle24/Vol-8-...> Started by Eric Smith @ May 6

- Would anyone like a fishing tackle box?** (#TinyKeepAlive): Has plenty of small compartments that can be used to store parts or N scale locos/cars. Please contact...

From this page, you can see all messages that have been posted in the groups.io system. You will notice that there are multiple messages listed and stored in the system in the order that they were sent out to the group. You may notice that some of the messages have special “tags” associated with the message. These tags, such as “#DivLeadership” or “#Special” tell the system that the message was sent to a different audience than just the members. These messages include other members of groups.io that may not want to get every message but want to be informed about our meeting notices or newsletter publications. Like the NMRA President, or the possibly members of other Divisions.

To send a message to the entire group, select “New Topic” from the menu on the right. This will bring up the message editor screen. All messages should have a descriptive subject that you want to tell the group at a quick glance what you intend to write about. The main portion of this screen is the message editor. This is a Hyper-Text Mark-up Language (HTML) editor. It allows you to change the format of the text, include URL links or pictures in the message. If you just want a plain message, just type in the text you want to share with the group.

Cowcatcher Division

Division One of the Lone Star NMRA Region

The screenshot displays the Groups.io interface for the 'Cowcatcherdivision' group. The top navigation bar includes 'Groups', 'Your Groups', 'Find or Create a Group', 'Help', and the user 'eric.smith'. The left sidebar contains a menu with icons for Home, Subscription, Messages, New Topic (highlighted), Drafts, New Poll, Hashtags, Chats, Members, Directory, Calendar, Photos, Files, Databases, and Wiki. The main content area shows the 'New Topic' form for the 'Cowcatcherdivision' group, with the user 'eric.smith' logged in. The form includes a 'Subject' field, a '# Add Tags' button, and a rich text editor with various formatting options. At the bottom, there are 'Send' and 'Discard' buttons.

When you have finished typing in your message, just hit send and the message is sent to the group as an email. Your message will be saved in groups.io for others to look at in the future. If you need the message to go to a wider audience, use the “# Add Tags” button to increase the distribution of the message.

All members of Division 1 have an account in groups.io. if you need to find an email address of a specific member, the members button on the menu bar will bring up the list of members.

Carlmalin	carlmalin@aol.com	Single A	09/29/23

This is the entire list of members and has some interesting information to be seen in the various columns. For instance: the red box with a “B” in it says that the email address for that member has bounced. As administrators of groups.io we set these members up as “No Email”.

Next in the list is the “Delivery” column. When a member has their membership expire from the NMRA, we do not remove them from groups.io. Instead, we change their delivery status to “No Email” just in case they want to rejoin the NMRA. A delivery of “Special” means that they do not want to get every email sent by the group, only those sent as special messages or use the #Special tag.

The Delivery type of “Single” is the default delivery type. This means that the user will get all messages sent by anyone in the group.

The last item I would like to highlight in this first installment of what is groups.io is the members menu option. This option allows you to look up a specific member of our division. Let’s say you know that the member’s name was David. You can search for only that specific name by entering it into the search box at the upper right.

1 - 12 of 12

From this you can get a specific email address to send a message directly to that person.

Since our groups.io platform is an NMRA social media site, it comes under the guidance of the NMRA Code of Conduct. Care must be taken when posting and replying to messages that have been sent to the social media site.

Groups.io is a messaging platform for all of us to use and send messages for distribution to the entire Division. We should all start using it to ask questions or to share topics that we find interesting. If you have something you would like to share, please post it to groups.io. I am sure that others in our group will be interested in hearing what you have to say.

August's Clinic

Modeling Greasy, Oily Diesel Terminal Track

With David Steckler

David's interest in model railroading began as a young child, even before he received his first Lionel train set. His earliest train memory is when he was not yet four years old, sitting in the cab of a New York Central P-Motor at Grand Central Terminal, heading up the train that would take his father to Chicago.

Growing up in New York City and Long Island, he rode behind EMD FL-9's, Alco C420's, and in MU units as a youngster to visit grandparents in Connecticut and the Bronx, becoming a big fan of the New Haven RR and Long Island RR.

As a teenager he modeled in N scale. After college and law school, David married and shortly thereafter built the first of several HO Scale shelf layouts. His current shelf layout models the Long Island RR and New Haven RR. His favorite parts of the hobby are electrical/wiring, ballasting, and weathering track.

Cowcatcher Division

Division One of the Lone Star NMRA Region

Effective March 31, 2020, in accordance with the policy adopted by the National Model Railroad Association (NMRA) at its board meeting on March 7, 2020, Division 1 of the Lone Star Region of the NMRA, commonly known as the “Cowcatcher Division”, will require anyone under the age of 18, wishing to attend any division event, to be personally escorted by their parent or legal guardian. Additionally, the parent or legal guardian must sign a current document stating that they will remain in visual contact with their minor at all times.
